Donna Wochoer (consultant - Professional Development and Training)			

**PROFESSIONAL DEVELOPMENT AND RECOGNITION COMMITTEE (PDRC)  
CANDIDATE STATEMENTS**

**ERIC FARNES**

I am a Student Services Coordinator, Office of Student Financial Services. I have been a member of the academic staff since the Spring of 1987; prior to that I was a LTE in the Student Financial Services Office; and a work study student in the Office of Student Financial Services during my undergrad years at UW-Madison (1981-1987).

I am very active in the State and Midwest Financial Aid Associations. I have served on the Legislative Committee for the State Association for five years and I have served on the Corporate Support Committee for our Midwest Association for the last four years. I have also served both associations in other capacities.

My major interests lie in the mechanisms in the recognition, promotion, and rewarding of the many contributions that the academic staff make to the university. I firmly believe that continuing education and lifelong learning is a part of academic staff life that can always be improved and upgraded. I would like to leave my mark and help shape the PDRC.

**STEVEN J. KRAUTH**

I am currently the Senior Academic Curator of the Insect Research Collection in the Department of Entomology. I am also a member of the Natural History Museums Council on campus. I have been a member of the academic staff in the Department of Entomology at UW-Madison since 1974.

I am interested in issues of job security. I was a member of the Biological/Medical Sciences Area Review Committee from July 1, 1987 to June 30, 1993 and reviewed 18 candidates for indefinite appointment.

I am also interested in mechanisms that encourage and reward individual efforts toward personal professional development that strengthen programs in times of financial difficulty. I have received two professional development grants enabling me to pursue specialized training. I have served as a voting member of the Ad Hoc Professional Development Grants Subcommittee (September 25 - October 25, 1991 and September 23, 1993 - February 1996) and reviewed 127 Professional Development Grant (PDG) Proposals. I am interested in the long-term survival of the PDG program.
