### **■ ACADEMIC ACHIEVEMENT AWARDS**

**Breanna Blesi**

Soph., Women's Hockey  
Major: Chemical Engineering  
NCAA Women's Hockey  
Elite 90 Winner

The ELITE 90, an award founded by the NCAA, recognizes the true essence of the student-athlete by honoring the individual who has reached the pinnacle of competition at the national championship level in his or her sport, while also achieving the highest academic standard among his or her peers. The Elite 90 is presented to the student-athlete with the highest cumulative grade-point average participating at the finals site for each of the NCAA's 90 championships.

Selection criteria:

- At least sophomore standing both academically and athletically in the sport for which they are being nominated, and in at least his or her second year (in any sport) at his or her current institution.
- Active member on the roster, eligible for the championship, and a member of the designated squad size at the championship site.
- Credits completed shall only consist of those credits accumulated at the current institution.
- Only undergraduate GPA is applicable. If the student-athlete has graduated and is in graduate school, he or she is still eligible for the award but consideration will be based strictly on an undergraduate GPA. Graduate students must be in good academic standing with the university.
- Each student-athlete is only eligible to win the award once per academic year, even if he or she participates in more than one sport.

Membership in Phi Beta Kappa is by invitation only (there is no application process). Women and men whose superlative scholastic accomplishments reveal breadth of exploration and depth of achievement in a broad range of the liberal arts are invited to membership in the Society.

Minimum requirements for consideration:

- Outstanding academic achievement as demonstrated both by cumulative GPA and by grades in the major(s)
- A minimum cumulative GPA of 3.75 (for seniors with a minimum of 93 credits) or 3.9 (for juniors)
- The course load should average 15 credits a semester
- College level math, statistics, or logic course (200 level or above; or AP calculus or AP statistics)
- Excellence in depth and breadth of study in the liberal arts as determined by (a) Number and variety of courses taken outside the major and the balance and proportion of the candidate's program as a whole; and (b) Demonstrated achievement beyond the introductory level in two of the following three areas: humanities, social sciences, natural sciences
- Senior candidates must have 90 credits of work in the College of Letters and Science; Juniors must have virtually all credits in Letters and Science.
