Adding Homework Files to Assignments in Canvas:

1. Navigate to the course you'd like to add a Signing Naturally Homework file to, and click **Assignments**.

2. Click **+ Assignment**.

3. Type in the **Assignment Name**. Note: you can label your Assignment according to your preference. In this example, we used "Signing Naturally – Homework 1.1" as our Assignment name.

- From the **Submission Type** section, select **External Tool**.

A screenshot of a web form's "Submission Type" dropdown menu. The menu is open, showing four options: "No Submission", "Online", "On Paper", and "External Tool". The "External Tool" option is highlighted with a blue background and a red border, and has a checkmark to its left.

- Then click the **Find** button.

A screenshot of the "External Tool Options" form. It includes a dropdown menu for "Submission Type" set to "External Tool". Below this is a section titled "External Tool Options" with the instruction "Enter or find an External Tool URL". A text input field contains the URL "http://www.example.com/launch" and is preceded by a chain-link icon. To the right of the input field is a "Find" button, which is highlighted with a red border. At the bottom, there is a checkbox labeled "Load This Tool In A New Tab" which is currently unchecked.

- Scroll/Search for **DawnSignDigital LTI 1.3** and click it.

A screenshot of a search result. The top part of the result is highlighted in a light grey box and contains the text "DawnSignDigital LTI 1.3" in blue, followed by a magnifying glass icon. Below this, the text "DawnSignDigital LTI 1.3" is repeated in a standard grey font.

7. Scroll/search for the Homework you'd like, click the checkbox, and click **Select**. In the example below, Homework 1:1 is selected.

8. Scroll down and click the purple **Select** button.

9. Click **Select** (again).

10. The **Load This Tool In A New Tab** is an optional setting. If NOT selected, the Homework will open within the same tab/window. If selected, the Homework will open in a new tab, which can then be closed once the Homework is completed. It is up to the teacher's preference whether to check this box or not. We suggest you choose one or the other, and then stick with that option for all of the Signing Naturally Homeworks.

ii. Display Grade as

iii. Do not count this assignment towards the final grade

Grades will be reported in your gradebook as ✕ and 0 points if incomplete or ✓ and 100 points if complete.

- c. If the Homework is Graded, it should be set as follows:
 - i. Points = 100
 - ii. Display Grade As = Percentage
 - iii. Do not count this assignment towards the final grade = **DO NOT** check this box.

i. Points

Assignment Group

ii. Display Grade as

iii. Do not count this assignment towards the final grade

Grades will be reported in your gradebook as a percentage.

12. Other fields can be filled in based upon teacher requirements.

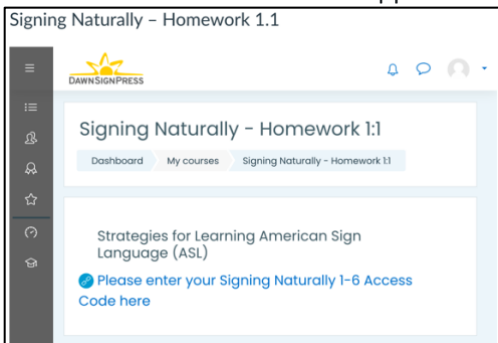

13. Click **Save** (or **Save & Publish** if you would like the Assignment to go “live” immediately).

NOTE: if you choose to not publish it immediately, you will need to go back to your Assignment

list and click the  button to turn it into a green checkmark () when you are ready for it to go live.

14. The Homework screen should appear once you have saved it.

15. Repeat steps 1-13 for every Signing Naturally Homework file you'd like to add to your course.

Types of Homeworks

- *Homeworks in the charts below that are marked as “complete/incomplete” are assignments that do not include any questions/answers. They may simply be reading material, or learning new vocabulary and then watching a video. Some of these assignments may ask students to either complete an assignment on paper; prepare something for the next class; or practice a new skill.*
- *Homeworks in the chart below that are marked as “graded” are assignments that have questions to which the student must respond.*

Frequently Asked Questions

Q: Where do my students purchase their access codes?

A: Your students can go to www.dawnsign.com/store to purchase their access code.

Q: How often can my students retake their assignments?

A: At the end of each 'Graded' Homework, students have the option to 'Retry' or 'Continue'.

If they click 'Continue', that grade will post to their grade book and will be their final grade for that Homework.

If they click 'Retry', their grade will continue to change until they click 'Continue' to officially exit that Homework.

All Homeworks are set up so students can take them an unlimited amount of times. But once they click 'Continue' on the 'YOUR RESULTS' slide, that is the grade that will post to their grade book.

NOTE: If you want to allow them to change their grade, they can send you a screenshot of their grade, and you can then manually change it in your gradebook.

Q: How long will my students have access to the Interactive Online Student Materials?

A: Your students will have access for the duration that their course is available to them. If you or your school deletes or archives the course, they will no longer be able to access the materials.

Q: Why do students see a screen that says “This tool was successfully loaded in a new browser window. Reload the page to access the tool again” when they access an assignment?

A: This is what the LMS calls our Homework files. They will need to switch to the tab in which the homework “tool” has loaded to complete the assignment.

Q: My student has completed their assignment. What should they do next?

A: This depends on how you have set up your assignment. If you checked “Load This Tool In A New Tab” in step 10 of Part 3, your student should click the “Exit Activity” button, close that tab, and return to the main tab that has their ASL course open. If you did NOT check that option, then your student should then click the “Exit Activity” button, and return to the Assignment page or the Course page using the blue hyperlinks on the top of the screen.
