TO: L&S Chairs/Directors and Administrators

ACTION REQUESTED: Review this email and share with colleagues who are involved in enrollment planning and staffing.

Dear Colleagues,

I am writing to share that the expected size of the First Year class for 2023 is 8100 (Fall 2022 class was about 8600). As always, it takes coordinated planning and flexibility from all L&S departments to meet the needs of our incoming class. We appreciate your department's efforts in past years to meet enrollment demands. We are hoping for yet another successful summer SOAR in 2023. We have created a "[Course Access Landing Page](#)" which may be updated as changes occur.

Staffing is an important part of course access. We have streamlined and simplified the planning process for TAs and short-term staff. Amanda Mahr and Lynne Prost will follow up with additional information.

[L&S Instructional Staffing Options to Meet Enrollment Demands](#) summarizes instructional staffing options available to departments beyond their normal faculty, instructional staff and Teaching Assistant resources.

Thank you,
Shirin
