Dear «Salutation»,

After an incredible summer at UW-Madison, we couldn't be more thrilled to welcome our Letters & Science students to campus. At the Chancellor's Convocation, incoming freshmen and transfer students were introduced to University traditions, while upperclassmen returned to a community of familiar faces and new adventures. As we look forward to another year of life-changing impact for our students and faculty, we're so grateful for the investment you've made here.

**Your support for L&S truly makes an impact.** We continue to thrive as the heart of UW-Madison, providing a learning environment of discovery, knowledge, and wisdom, and you play a vital role in furthering this mission.

Thank you for investing in the future of this great College.

On, Wisconsin!

Denise P. Hickey, Esq.  
Assistant Dean of Strategic Communications & Advancement  
College of Letters & Science at UW-Madison
