Dear <<Salutation>>,

Last month we achieved another milestone in L&S, as we celebrated commencement with the class of 2021. More than 3,700 undergraduate and nearly 700 graduate students joined our community of L&S alumni. And while many may be leaving Madison, they will all remain part of our extraordinary Badger family. We will always remember this class for their hard work and resilience in the face of unprecedented challenges.

Thank you for supporting our students and our mission with your recent gift to the Letters & Science Annual Fund. Your gift helps us prepare all L&S students to meet whatever challenges lie ahead.

While campus remains a bit quieter than usual this spring, the L&S community continues to pursue the great work that makes the College the heart of UW-Madison. We recently celebrated three undergraduate Goldwater scholars from L&S, one of the nation's most prestigious awards for students studying mathematics, natural sciences or engineering. All three have worked closely alongside faculty advisors, taking advantage of the research opportunities that are only possible here in L&S because of supporters like you.

Thank you, again, for your support, and On, Wisconsin!

Scott A. Carter, Ph.D.
