# Completing the Funding Page

*It is important for the IRB to understand how a study is funded, therefore we ask for certain information about research support on the ARROW application. However, some questions are included for other campus offices/entities use and provided as a service to them and to the study team.*

*A prime example is the linking of a Research & Sponsored Programs (RSP) record of grant or contract funding. RSP will not release funds unless their record is linked to an approved protocol. Therefore, the linking – required by RSP, and not as part of the IRB's review, should be executed before approval of an application to ensure RSP will release funds to the study team.*

*Below are instructions on how to list your funding – that is administered by RSP – on your ARROW application. Note: only 133, 144, 233, and 135 accounts need to be listed (per instructions from RSP).*

1. **Funding Information**

   Question 1.1: Do you have pending or approved funding administered through Research and Sponsored Programs (RSP) or Business Services to support this project?

   Answer Yes to this question if:
   - You have been awarded federal or non-federal funding.

   - You have been notified by a federal or non-federal sponsor that funding will likely be awarded to you.

   Answer No to this question if:
   - You do not currently have funding to associate with this application.

   - You are planning in the future to submit a funding proposal, but have not yet done so. If you receive funding in the future, you can add this via a New Change.

     **If you are unsure, please check with your department.

2. **The Funding Chooser**

   Question 1.2: Use this chooser to select each funding source administered through UW-Madison that will support this study or project. By default, the chooser displays active and pending funding sources for the principal investigator (PI) of the application, with the most recent listed first.

## Funding Information

* 1.1 Do you have pending or approved funding administered through Research and Sponsored Programs (RSP) or Business Services to support this project?
  ○ Answer no to this question if this study will only be supported by VA funding; you will have the opportunity to add VA funding later in the application.

● Yes ○ No Clear

1.2 Use this chooser to select each funding source administered through UW-Madison that will support this study or project.
  ○ For federal funds, pending sources may be listed if the grant has received a highly meritorious score. For example, an impact score of <30 is an indication of a highly meritorious NIH grant proposal. Receipt of a request for Just In Time (JIT) documentation is another indication of a highly meritorious proposal.
  ○ For non-federal funds, pending sources may be listed if you have confirmation from the sponsor that funding will be awarded due to merit AND the sponsor has a peer-review process.
  ○ For industry, do not select industry sponsors who are only providing drug/device OR only limited support for the study.
  ○ If you cannot find a funding source or have other questions, please email andrew.drinkwater@wisc.edu for help.

study

• The active and pending awards for this application's PI are listed below.

• If you are looking for funding sources not awarded to this study's PI, clear the search field. You can then search for funding sources using any of the following: PI Name, Award # (MSN), Project ID, Funding Title, Sponsor #, or Sponsor Name

• Some types of funding are not yet listed in the chooser (e.g., WPP, some ICTR awards). For these funding sources, click cancel and enter the funding in response to question 1.3.

4. **Funding NOT administered through RSP**
   Question 1.3: Do you have pending or approved funding NOT listed on this page?

   Answer Yes to this question only if you have pending or approved funding not yet listed in campus systems like WISPER or WISDM. This will only apply to a few types of awards, such as WPP and some ICTR funding.

5. Answer No to this question if:
   - You do not have any funding to associate with this application.

   - All of the funding sources you wish to list in this application are listed in the chooser (question 1.2).

* 1.3 Do you have pending or approved funding NOT listed on this page?

● Yes ○ No Clear

1.3.1 Provide the name of the funder or sponsor (e.g., ICTR, WPP)

> The Institute of

*

1.3.2 Provide a brief title or description of the funding award

> Exploring New Funding

*

5. **Confirm Funding Supports this Application**

Final Page ❓

1.1 Do you certify that:

The information presented in this application is accurate; and

The specific aims and description of research (including subject population, subject interventions, collaborators, performance sites, and general scope of work) in this IRB application are consistent with those described in the sources of support listed as providing financial and/or material resources to conduct this study?

* ● Yes ○ No Clear

Uploading the grant narrative and budget to your Arrow application is no longer required. Instead, on the final page of the application, you will need to certify that the financial sources outlined in the Funding Information section support this application. **\*\*Only funding records that support the research detailed in your application should be listed.\*\***
